## POLYTHENE BUILDING FILMS

### Polythene Damp Proof Membrane

Polythene BBA accredited damp proof membrane is available in 250mu, 300mu and 500mu nominal thickness only and in blue or black. Single rolls are available from stock and pallet quantities of forty (pallet quantity of thirty-five in Northern Ireland). The polythene is used to protect buildings from the passage of water and water vapour from the ground when installed to the appropriate standards. Handipacks of the same material in bags of 4m x 3m, 4m x 5m and 4m x 6m are a popular choice for small applications.

### Jointing Tape

DESCRIPTION	SIZE	UNIT
Single Sided Jointing Tape	50mm x 33m	roll
Single Sided Jointing Tape	75mm x 33m	roll
Single Sided Jointing Tape	100mm x 33m	roll

### Pallet Stretchwrap

Hand applied pallet stretchwrap, blown type for extra strength, ideal for wrapping uneven pallets of bricks, blocks, timber etc.

400mm x 300 metre x 20 mu thick, 6 rolls per box.

### Temporary Protection Sheet

A polythene temporary protection sheeting available in 50mu, 4m x 25m rolls and a lighter weight roll of 4m x 50m.

### Super Clear and Miscellaneous Polythene Films

A range of polythene Films to suit particular requirements, including flame retardant orange film, virgin super clear film and TPS films. Please enquire for further information.

### Rhinoplast LT Joint Strip

A double sided sealing and jointing tape for use with all polythene films particularly gas barriers to form a permanent seal. The product is designed to remain tacky at temperatures as low as 0°C.

Roll size 50mm x 15 metres.
