# STONECRAFT

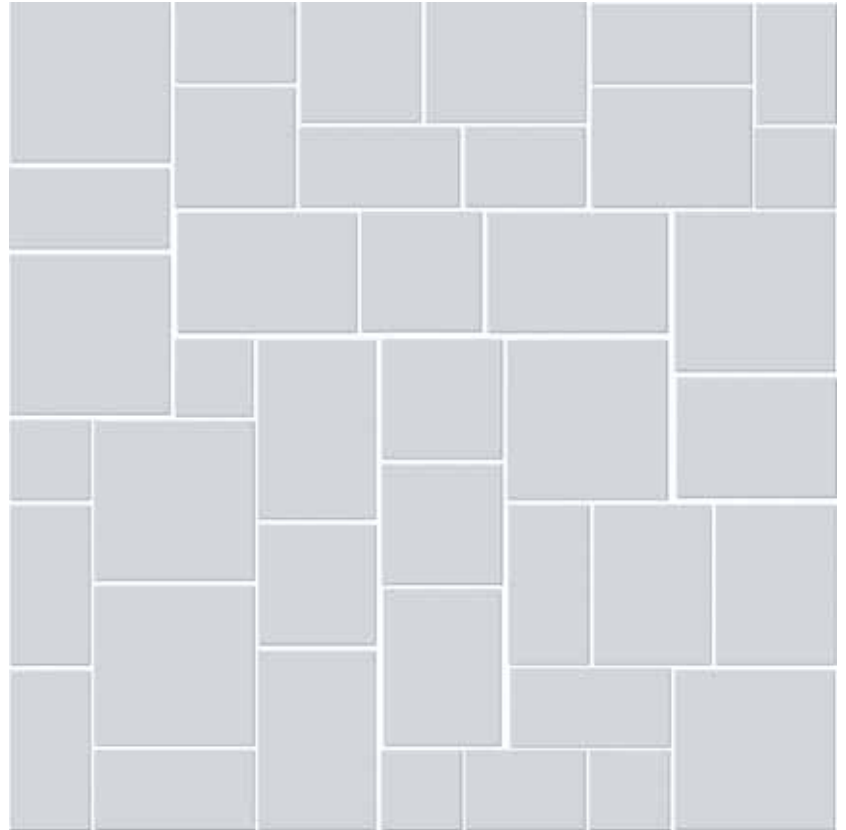

It has a high profile riven surface and dressed edges, reminiscent of natural stone. With the variety of colours available it is sure to blend into any area. By mixing the colours as shown below, you can recreate an authentic stone appearance.

## Suggested paving layouts

These layouts are a guide to the quantity of paving required to cover an area and suggestions for laying patterns.

Each person's patio is individual to their garden so the patterns shown will need to be altered to suit the area being planned.
